UXC Connect Appoints Director, Marketing, Sustainability and Innovation

Iggy Pintado Joins the UXC Connect Leadership Team

SYDNEY, Australia – 1 July 2010 – Following UXC Connect’s recent business transformation, UXC Connect today announced the appointment of Iggy Pintado to the newly created role of Director of Marketing, Sustainability and Innovation. Pintado joins the UXC Connect team today and will be responsible for driving thought leadership, innovative solution offerings and differentiation in the market. Pintado will also be responsible for leading UXC Connect’s focus on business sustainability and will be responsible for alliances, lead generation and pipeline growth.

Pintado’s appointment is directly aligned with UXC Connect’s recent transformation project, which has seen the business make significant changes over an extended period to ensure its offerings, sales and delivery models are relevant and focussed on the business outcomes of its customers.

Pintado comes to the role with a wealth of executive management experience. During his 20 years at IBM and two years at Telstra, Pintado developed his expertise in enterprise sales marketing, business operations, internet sales and marketing. In July 2008, he co-founded a business networking, consulting, marketing and speaking business called ConnectGen;

and in April 2009, published his first business book, CONNECTION GENERATION.

Paul Timmins, UXC Connect Managing Director said, “Iggy will be a valuable member of the UXC Connect Leadership Team and our business will benefit from his extensive expertise in developing business strategies that deliver tangible results. He also has a proven ability to implement both

traditional and online sales, marketing and channel initiatives that will enable sustainable relationships with customers, prospects and partners.”
